

COLLECTION OF CIG-OSM/IN DECISIONS

Standard: EN 61058-1:1992	Sub clause: 11.1.2.1.4	Sheet no. OSM/IN 118 Page 1(1)
Subject: Terminals for prepared copper conductors requiring the use of special purpose tool	Key words: prepared copper conductor s	Meeting no. 6 7 8 Item 6.12 3 4(Offenbach 6.120
<p>Question: It is required in sub-clause 11.1.2.1.4 that the insertion of the conductor is limited by an stop. Is it needed a stop or is it acceptable that the manufacturer gives instructions?</p> <p>Decision: The instruction given by the manufacturer of the switches to the appliances manufacturer are acceptable if the construction of terminal is such that the insertion can easily be done so that the clearances/creepage distances are not reduced.</p> <p>Explanatory notes: -</p>
